MP/S Skewable Angles

MP/S angles are field-adjustable to attach members intersecting at angles. MP/S angles are load rated and provide adequate thickness and fastener quantity to the field fabricated clip angles.

**Materials:** 18 gauge  
**Finish:** G90 galvanizing

**Installation:**
- Use all specified fasteners.  
- Field-adjustable from 45°-180° (flat). Bend angle only once.  
- Joist must be constrained from rotation.

1) Allowable loads are for one part only.  
2) Member mils (33, 43, 54) has been considered as Grade 33.  
3) #10 screws are ITW Buildex 10-16 HWH Teks Structural Fasteners with a nominal diameter of 0.190”. Self-drilling tapping screws with equivalent physical and strength properties may be used.
