GIVE YOUR CUSTOMERS MORE CHOICE.

MITEK OFFERS YOU AND YOUR CUSTOMERS BETTER CHOICES WITH THOUSANDS OF CODE-APPROVED PRODUCTS AND INNOVATIVE BUILDING SOFTWARE.

The Best Designs are Built with the Best Technology

Designing for high wind and seismic loads? Start with MiTek® Hardy Frame® Special Moment Frame. Its pre-fabricated, pre-engineered system features MiTek's exclusive SidePlate® moment connection to maximize lateral load resistance, while minimizing the frame's column profile. Hardy Frame's renowned performance allows for larger openings, even under the toughest requirements.

Experience True Support

What sets MiTek® apart is our genuine, core passion for serving you, and building trust through our uncompromising commitment to help you succeed— immediately, and in the long run.

Specify MiTek Brands For a Better Build

MiTek® brands are not only a great fit for your project, they're better for your business. On your next build, specify MiTek® Hardy Frame®, MiTek® USP Structural Connectors and MiTek® Z4® Tie-Down Systems and give your customers a choice with greater value and a faster return.

MITEK® SPECIFIER

Access specification on thousands of MiTek USP structural connectors for quick product selection and documentation.
