

WHAT TO LOOK FOR IN A COLD FORMED STEEL MOMENT FRAME

PANEL ZONE

Provides Moment Connection with high capacity and ductile behavior.

ELECTRICAL ACCESS

3/4 inch holes with grommets running electrical wiring provided at upper and lower area of Panels.

PANEL AND BEAM SHAPE

C-shape construction can be used to recess electric fixtures, install wood backing or insulate.

PRE-PUNCHED SCREW HOLES

Install USP Pro-Series Screws for shear transfer and wood attachment.

COLD FORMED STEEL (CFS)

Easier to ship, handle and install than structural steel components.

NARROW BEAM DEPTH

Maintains opening height at standard garage fronts.

STANDARD MODEL NUMBERS AND DETAILING

Brings efficiencies to designers, suppliers and installers.

2-BOLT ASSEMBLY

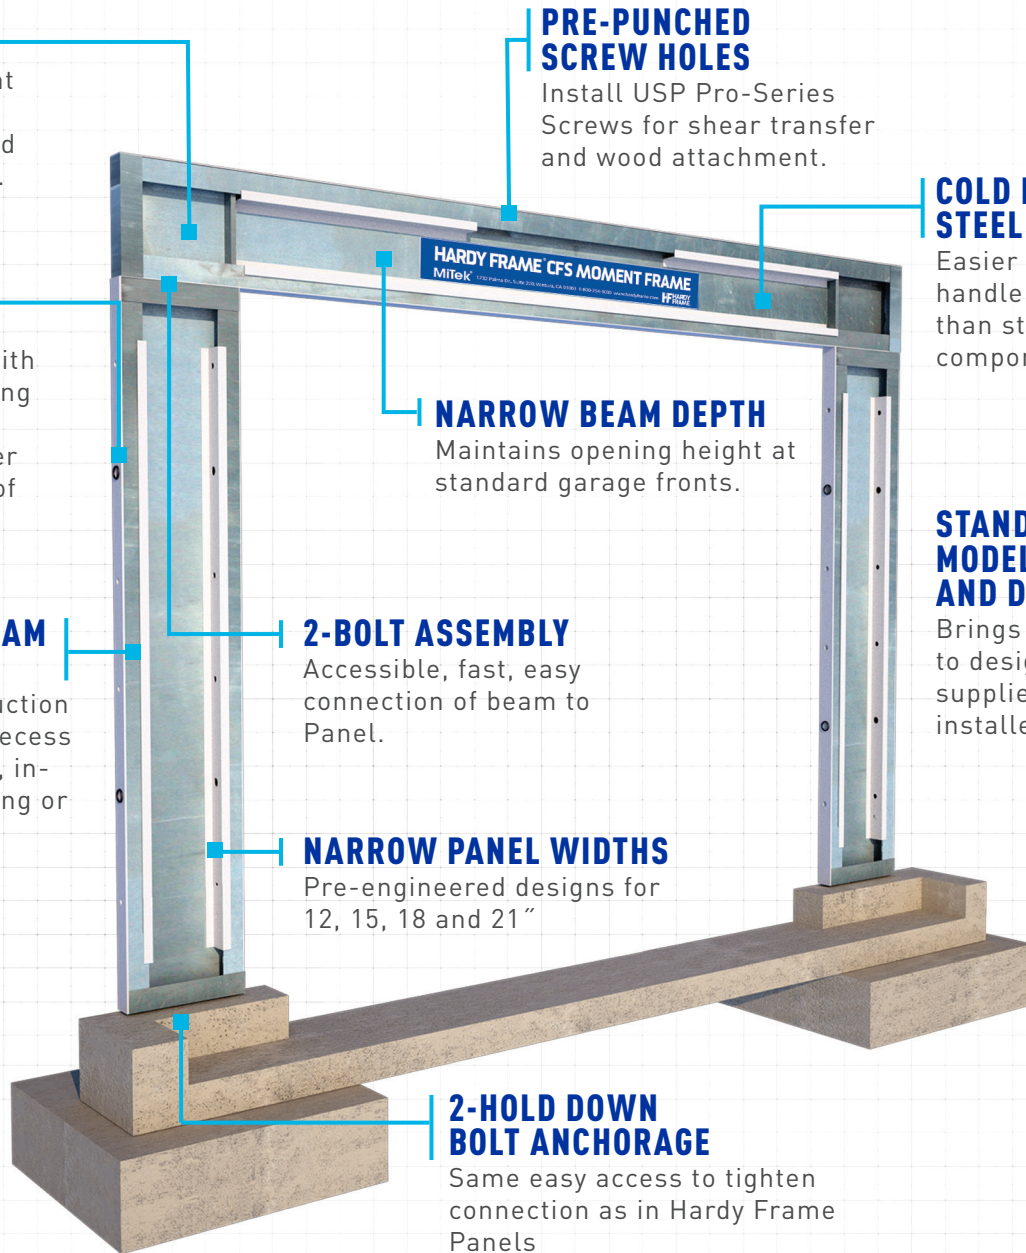

Accessible, fast, easy connection of beam to Panel.

NARROW PANEL WIDTHS

Pre-engineered designs for 12, 15, 18 and 21"

2-HOLD DOWN BOLT ANCHORAGE

Same easy access to tighten connection as in Hardy Frame Panels
