

Extended Life Connectors

USP Structural Connectors offers anchors, hangers, framing angles, straps, and fasteners in Gold Coat for 2x the corrosion resistance protection. Gold Coat is a multi-layer protection system that protects the integrity of the structural connector by offering two layers of corrosion resistance. The top layer is a specially formulated organic polymer barrier designed specifically for outdoor applications and contact with treated wood.

Finish: Gold Coat

Required Fasteners: Gold Coat fasteners

Installation: Reference USP'S Product Catalog for fastening requirements, design values, and installation instructions.
