

## SOFTWARE

# Secure Access to Your MiTek Software from Anywhere

## MiTek<sup>®</sup> CLOUD

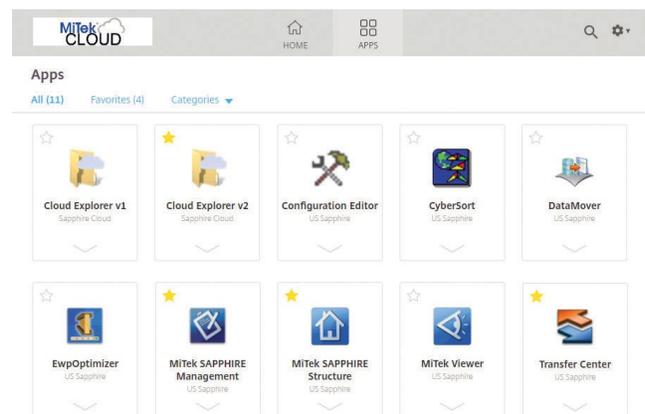

MiTek<sup>®</sup> Cloud gives you secure access to your MiTek software suite from anywhere you have an internet connection.

Enjoy more rapid deployment times and improved technical support, and virtual integration of operations across multiple sites and locations.

### FLEXIBLE ACCESS TO YOUR SOFTWARE

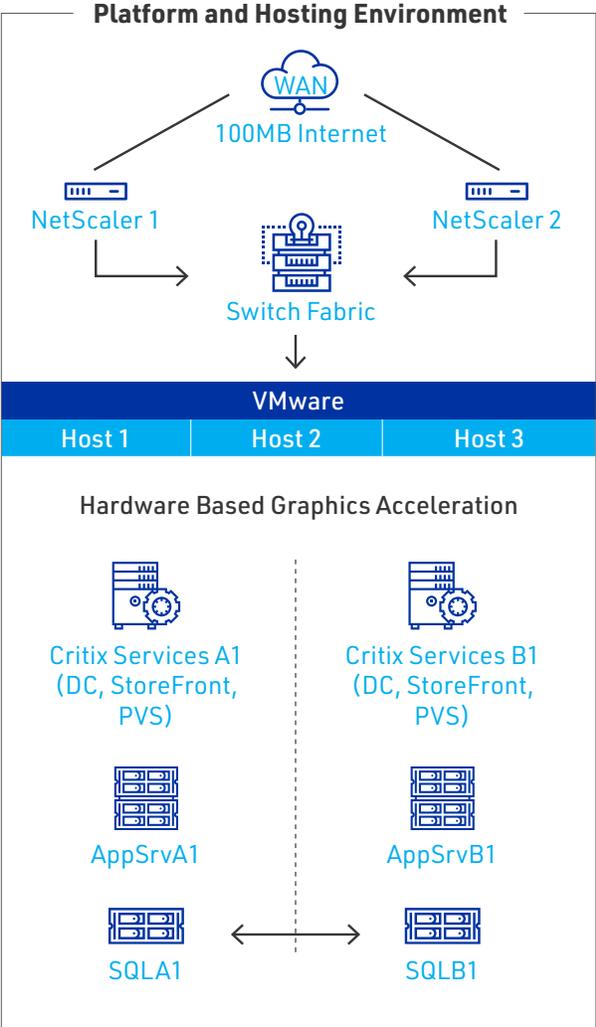

MiTek<sup>®</sup> Cloud offers an alternative to traditional on-prem software hosting via a partnership with Peak UpTime. With 100% uptime since 2001, you can be confident in the ability to securely access MiTek<sup>®</sup> Supply, MiTek<sup>®</sup> Structure, MiTek<sup>®</sup> Management, and MiTek<sup>®</sup> Production.

## STREAMLINE WORKFLOW BETWEEN REMOTE DESIGNERS & FACILITIES

## RELIABLE INFRASTRUCTURE

MiTek® Cloud is a fault-tolerant environment, meaning it is N+1 fully redundant and multi-pathed at the VM/Application level. It is implemented with SQL AlwaysOn Availability Groups, clustered file servers, load-balanced web services, and multiple domain controllers.

## PRICING & TERMS

MiTek® Cloud requires a three-year agreement.

- One time implementation set up fee ----- \$5,000/environment
- 1 to 10 Users ----- \$1,750 flat fee (min.)/month
- 11 to 50 Users ----- \$175/seat/month
- 51 to 100 Users -- \$165/seat/month
- 101+ Users ----- \$155/seat/month

## ADDITIONAL OFFERINGS
