

**With Industry-Leading Technology, Clear Marketshare Leadership, and Deep Supply Chain Connectivity, MiTek Maintains its Status as the Software Solution Set of Choice for Home Builders**

*For Its Home Builder Software Solutions, MiTek Commits Resources for New Development, Support, Documentation, and Implementation Services. 35 New Positions to be Added in 2019.*

**CHESTERFIELD, MO** – March 13, 2019 – To aggressively accelerate the technology solution offerings it provides to home builders, MiTek today announced that it is committing substantial new resources to its home builder software group. In 2019, MiTek will add 35 new associates in the areas of software development, documentation, support, product management, and implementation services.

MiTek has long offered the top home builder software solutions, including award-winning systems for workflow management, document management, CRM/sales process automation, drafting and estimating service, web-based sales of new homes, and HVAC system optimization.

Demonstrating its deep connectivity into every aspect of the supply chain, MiTek is the premier provider of digital, wood-frame, structural-design tools through its SAPPHIRE® *Suite*, which has various modules, including: SAPPHIRE *Structure* (for use by component manufacturers), SAPPHIRE *Supply* (for use by building material dealers), and SAPPHIRE *Viewer* (for anyone viewing BIM models). SAPPHIRE *Build* (for use by home builders) is just one of the home-building-specific programs MiTek offers, in addition to

BuilderMT™, Sales Simplicity™, Wrightsoft™, DIY Technologies™, and other service-oriented systems such as SAPPHIRE's Kova and Blackpoint for CAD and BIM file management.
