

NEW DESIGN FOR AN EVEN EASIER INSTALL

The heavy-duty **MiTek® LumberLok™ Connector Screws** you've come to rely on are even better than before, supporting an improved installation experience.

Redesigned with an improved head style and enhanced coating, LumberLok delivers easier installs with less shearing, better bit engagement, and a stronger, more controlled start.

AVAILABLE IN
GOLD COAT AND **NEW**
GALVANIZED FINISH

BENEFITS

- **NEW!** Available in 50- and 100-count boxes to fit your project needs
- Offering a code-evaluated replacement for nails, LumberLok screws are compatible with MiTek connectors, simplifying selection
- Easy, one-handed installation speeds up projects
- Durable and weather-resistant for reliable performance in outdoor applications
- Twin-lead thread design drives in twice as fast to cut installation time
- MiTek® GoldCoat® option blends seamlessly with wood and matches other connectors for a clean, professional look
- One screw, two applications - integrated shoulder designed to cover diameters #9 and #10 for installation flexibility
