

North Carolina Single Top-Plate Splice Connection

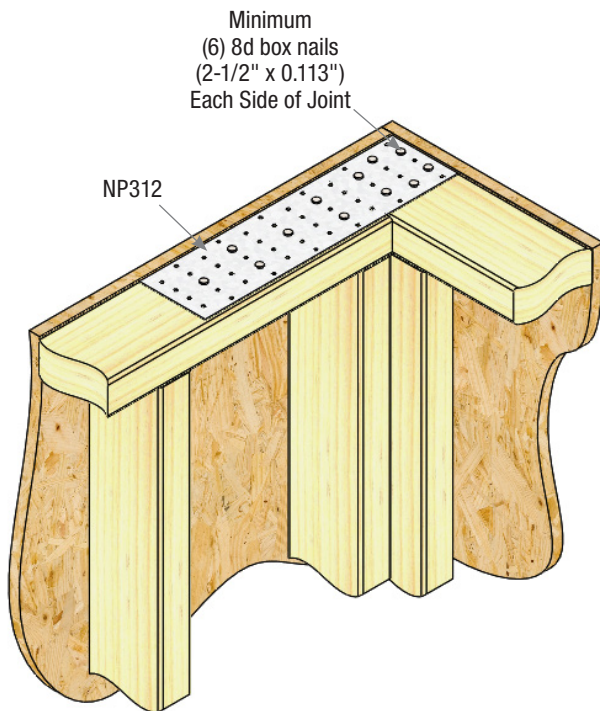

Use of MiTek's NP312 Nail Plate in Single Top-Plate Connections Meets North Carolina Prescriptive Code:

Table R602.3.2 of the North Carolina Residential Code specifies the connection of single ply top plates. MiTek's NP312 nail plate meets and exceeds the minimum requirements for plate size, thickness and galvanized coating thickness.

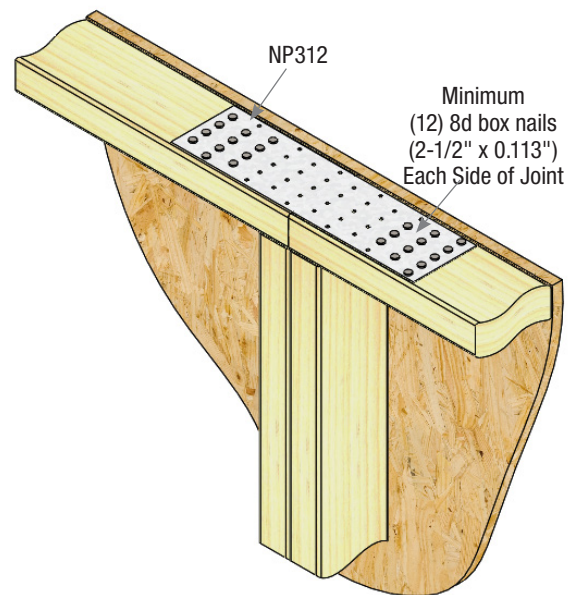

The NP312 may be used for both corners and intersecting walls and butt joints in straight walls in the SDC A-C condition. The details below show the minimum requirements for each installation.

NP312

**Typical NP312
 prescriptive top-plate wall
 corner connection**

**Typical NP312
 prescriptive top-plate butt joint
 straight wall connection**
