## THD28-2 Truss Hanger Masonry Application

The THD28-2 Truss Hanger can be used to connect double $2 \times 8$ or $2 \times 10$ plated wood trusses, rafters, or joists to masonry wall structures. Allowable loads are based on proper use of fasteners installed per manufacturer's specifications.

- Masonry screw shall be 3/16" diameter Powers ${ }^{\circledR}$ Fasteners Tapper+ or equivalent
- Minimum masonry screw embedment shall be 1-1/4"
- Install masonry screws only in shaded fastener holes as indicated on illustration to achieve listed loads in the table below
